WRITING 1

What makes a good party? Write about it.

Write about the music that gets you going.

From the 90s (or the decade you turned 20), think about your hair, your clothes, style, music? Pick one—or all—and write about it.

WRITING 2

“In my time...”

Write about success. Or write about failure.

What did you do when something you believed in turned out to be not true?

WRITING 3

What is your most endearing trait? (Or what is your least endearing trait?)

Write about change. Change within your life. Past changes, future changes. Change in your mind or heart. Change in the community, culture, country, anywhere.

Write a poem about something weighty: like death, homelessness, injustice, etc.
